

# Plutonium in Switzerland

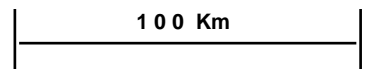

Boiling Water Reactor (BWR)

Pressurized Water Reactor (PWR)  
partly fuelled with MOX

Interim storage facility

## **5 Nuclear Power Plants in Operation**

- 2 boiling water reactors (BWRs).
- 3 pressurised water reactors (PWRs), all licensed for MOX use, all using MOX fuel. Fresh MOX fuel is currently stored on site at the Gösgen plant.

## **1 Interim Storage Site for Radioactive Waste** (under construction)

- Zwiilag (Zentrales Zwischenlager Würenlingen)

**No Reprocessing Plant**

**No MOX Fabrication Plant**
